13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On September 15, 1992 Gocat No. 9 wellhole was plugged with 28 to 31 sacks of glass "B" cement using $4\frac{1}{2}$ gals. of water per bag mix from bottom to top. A 5ft. high x 3" dia. dry hole marker was set with all the appropriate markings and filled with cement.

Pit was filled in Sat. Sept. 26, 1992.

The surface dirt on most of the drill pad area was not disturbed, just the pit and around the wellbore area needed to be leveled and grass seed was planted.

Per page D-11 of the application for permit to drill (APD) on Gocat 9 approved 7/29/92.

No logging was done in hole.
