13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Hereby request a change in the surface casing and the setting of same. Request that the change be as follows, drill a 10 3/4 in. DIA. hole to a depth of 260 ft. and set 7 in. I.D. surface casing with threaded joints # 17 lbs. to a depth of 260 ft. and cement the 7 in. pipe in place by circulating cement from bottom to surface. Then set B.O.P., per approved A.F.D.. Then drill within the 7 in. I.D. pipe a 6 1/2 in. diameter hole to a depth of 310 ft. using a cable tool rig. Hole would be an open bottom completion for production. Estimated date to start drilling is Sept. 7, 1993. Well pad and pit work was done on Aug. 24, 1993. Pit was lined with plastic and the four sides enclosed with 4' high wire fence on Aug 27, 1993.
