12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work.) SEE RULE 1103.

We request permission to extend our temporarily suspend operations approval by an additional 120 days to have sufficient time to evaluate this well and reservoir for gas storage. PNM is still reviewing the well and reservoir data for this purpose. It appears that PNM is planning to move forward with re-entry of this well either later in the year or the first of next year per recent conversations with Joe Levine with PNM in Albuquerque.

DENIED

PNM is now expected to have a decision on the well / project by the end of the year.

Please call Mr. Levine if you would like to verify this or call me at the below phone number for any clarification.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
