Dear Shorty:

You sent the wrong red tape. The well which we were concerned about was your #8 Navajo which was located in the SE $\frac{1}{4}$ Section 36-22N-14W. We have nothing on file but a Notice of Intention to Drill on this well. We would like to know if it is a producing well and if so how you are selling the oil without a Form C-110 having been approved.

If it is a dry hole we would like to have enough information filed to complete our records so that we may show it as a completed well.

Merry Christmas and Happy New Year.

Yours very truly
