Re: Contract I-149-Ind-8109-A

Gentlemen:

Receipt is acknowledged of your "Notice of Intention to Drill" dated August 3, 1956 covering your well No. 1 Riley-Charley in SW 1/4 NE 1/4 sec. 8, T. 23 N., R. 9 W., N. M. P. M., San Juan County, New Mexico, Wildcat pool.

Your proposed work is hereby approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1942, a copy of which will be sent to you on request, and subject to the following conditions:

1. Drilling operations so authorized are subject to the attached sheet for general conditions of approval.
2. Furnish copies of all logs.

Very truly yours,

(Orig. Sgd. P. T. McGrath)

August 3, 1956

Well No. 1 is located 1790 ft. from [N] line and 1075 ft. from [E] line of sec. 8
S. 1/2 of S. 1/2 of Sec. 8 23 N 9 W H. T. S. S.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Wildest San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the surface above sea level is 6636.8 ft. (6636.8 ft. S.L.)

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this well to a depth sufficient to test the Gallup sandstone formation or to a depth of 5,000 feet, whichever first shall occur. 8 5/8 inch surface casing will be cemented at approximately 200 feet, circulating to top of ground with 250 sacks of cement. We will drill a 6 3/4 inch hole through the Gallup Sandstone Formation. We will run electric logs. If production string is necessary we intend to cement 5 1/2 inch, 15.5 pound, casing with 250 sacks of cement through the producing horizon and perforate. Rotary tools will be used.

I understand that this plan of work must receive approval in writing by the Geological Survey before operation may be commenced.
