13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Elm Ridge Resources, Inc. took possession of this well from Pinnacle/Thompson in a non-producing state. There is no equipment on location. We feel the Gallup formation still is productive but there may be some downhole problem. We plan to re-enter the well and determine what problem exists. We will place the well back on production from the Gallup if possible. If not we will evaluate any additional potential and submit necessary paperwork to perform additional work. We anticipate moving a rig into the area in the spring of 2000.
