13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Request long-term shut-in based on economics.

This well is 5 miles from our closest possible gas tie-in. The construction of a 2-7/8" pipeline to our Rusty Chacra facility would cost approx. \$225,000. This lease and others in the area hold potential to support a line in the future if gas prices improve.
