13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Plan to construct a surface pipeline to connect the Witty #1 to the existing system located at the Witty #6, 2010' FSL & 1650' FWL, (see attached map.) The pipeline will be constructed of 1-1/2" IJ steel pipe at a length of approximately 2600 ft. All construction will be on lease. At the San Juan County Road #7830 crossing, the proposed pipeline will be buried to a depth of at least 4 ft and threaded through a joint of larger casing. Construction will begin when we receive approval to cross the county road. The archeological survey has been done and a report is being prepared.

We are requesting approval of a surface pipeline due to the marginal nature of the well and the topography.
