(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Request to leave temporary surface pipeline in place for additional testing. Production from the subject well has been disappointing and very marginal. In its eleven months of production, it has sold an average of 8.5 MCFD. This well is the only well completed in the Witty Springs PC and we are requesting additional time to adequately evaluate the production potential from the pool.
