130 EAST THIRD STREET

Mt. Carmel, Illinois

Farch 19, 1955

Er. Eugene A. Chavez Cil and Gas Inspector - Dist. #4 New Mexico Oil Conservation Commission P. O. Box 871 Santa Fe. New Mexico

Dear Sir:

I am very sorry to be so late in completing the forms - now enclosed.

After the well was plugged and converted to a flowing water well, the Rotary Rig stayed on the location because the Contractor was hoping to get another drilling job and move directly to it.

Finally, he was forced to move the rig back to Farmington and the site was cleared. I have not had the opportunity to inspect the well site but Mr. Cannedy reports that he has moved his equipment and our salvaged casing so that the owner is satisfied.

I have sent two copies of the Report , C 103, to Mr. Arthur M. Pack at Tucson with the request that he endorse one copy about as follows and return one copy to you.

"Accepted as a Water Well by myself as owner."

I hope that this completes the necessary reports and enables you to cancel our Plugging Bond.

Ers. Watson and I expect to drive out thru Santa Fe during the first week in April. I hope that I have the pleasure of seeing you while we are in Santa Fe.

With my very best regards.

Sincerely,
