NE/4 Section 34 - 24N - 1W
Rio Arriba County, New Mexico

Gentlemen:

I enclose herewith original and four copies of your form C-104, Request for Gas Allowable, covering the above captioned well. The test charts on said well will be forthcoming within the next few days.

Please note that the producing formation is designated as the Torrejon Puerco. It is my understanding that this is a non-prorated formation and we would appreciate knowing if it is the opinion of your office that the #2 Schmitz well will fall in the same category as the #1 Schmitz insofar as allowables are concerned. An early reply to this question will be appreciated.

Also, would you kindly change the name of the producing formation on all other forms furnished to your office covering the #2 Schmitz to read the Torrejon Puerco formation.

Very truly yours,

SHAR-ALAN OIL COMPANY
