New Mexico Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico

Gentlemen:

Enclosed are two copies of the "Gas-Oil Ratio Report" on the Val R. Reese & Associates, Inc. #1-30 Sperling well located in Section 30, T-24N, R-6W, Rio Arriba County, New Mexico. This gas-oil ratio was taken after the test period which was granted to evaluate the Gallup formation. During the test period it was found that the Gallup would not produce into the gas line.

We are delinquent in filing a gas-oil ratio as we were only able to produce the #1-30 Sperling well intermittently during February and March due to bad weather conditions and, as a result, were unable to determine the stabilized production from the well. We wish to apply for an allowable on the basis of this gas-oil ratio.

Very truly yours,

  
Val R. Reese
