DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is our intention to plug the above well as follows:

Pump approximately 75 sacks of cement through drill pipe and set plug at surface.

Erect permanent marker and level location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
