REPAIR WELL <input type="checkbox"/>	CHANGE PLANS <input type="checkbox"/>	(Other) <input checked="" type="checkbox"/> Long-term shut-in	(Other) <input type="checkbox"/>

(NOTE: Report results of multiple completion or well completion or recompletion Report and Co. form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Wellbore is presently shut-in and considered uneconomic to produce. Kerns Oil & Gas, Inc., as operator, is actively evaluating its options for establishing commercial production:

- Through access to better gas markets via transportation on El Paso Natural Gas Company pipelines under construction or being re-routed.
- By reduction of gathering system line pressure through an arrangement with El Paso Natural Gas Company. Line pressure has been high in the San Juan Basin.
- By recompletion of the well in other prospective zones including the Fruitland Coal.
