Mr. Emery Arnold  
New Mexico Oil Conservation Commission  
P. O. Box 697  
Aztec, New Mexico

Dear Mr. Arnold:

Attached is the 1968 deliverability test for the subject well which has recently been shut-in due to failure to file a 1968 test.

The original 1968 deliverability test was conducted in May, 1968, which resulted in a scheduled retest. The retest was conducted from 11-7-68 to 12-6-68, but the results were misplaced and have just been received in this office.

We trust this will fulfill the requirements and the well will be returned to production very soon.

Very truly yours,
