17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well has a casing failure. We intend to lay 2 3/8 tubing down, spear head 6000#'s 20-40 vulcan sand which should leave sand at about 5100'. Land 2 7/8 tubing at 5000' and cement same inside 4 1/2 casing with 500 sacks Class H, at 15.6#'s with a yield of 1.18. Will drill out cement inside 2 7/8 and clean out 4 1/2 to 5598'. Will land 1 1/2" tubing and place well back in operation.

The following information is pertinent on this well:

Perfs 5322' - 5476'
PBTD 5598'
Model A 50 jts. from surface.

It is anticipated the above work will start on Monday, August 27, 1984. Verbal approval was obtained from Earl Beacher on August 23, 1984.

18. I hereby certify that the foregoing is true and correct
