Albuquerque, New Mexico

Re: Gas-Oil Ratio Tests,  
Eastern Petroleum Federal #1-22  
N-22-24N-7W

Gentlemen:

All operators were notified on January 1, 1960 to schedule all producing oil wells in District #3 for gas-oil ratio tests. These tests were to be submitted prior to April 10, 1960.

We have not received a Gas-oil ratio test for the above well and unless a test is received prior to May 1, 1960 the well will not be assigned any allowable.

Please give this matter your attention.

Yours very truly

Emery C. Arnold  
Supervisor, District #3

New Mexico Oil Conservation Commission  
P.O. BOX 21400  
ALBUQUERQUE, NEW MEXICO 87101

Dear Sir:

I am writing to you regarding the New Mexico Oil Conservation Commission's recent findings regarding the oil and gas reserves in the state.

The Commission has determined that the state's oil and gas reserves are significantly larger than previously estimated. This finding has important implications for the state's energy future.

Enclosed

is a copy of the Commission's report, which details the findings and recommendations. The report also includes a map of the state showing the locations of the oil and gas reserves.

I hope this report will be helpful to you in your work. If you have any questions or need further information, please contact me at the Commission.

Please give the report your attention.

Sincerely,

John J. Smith  
Chairman
