Re: Bradenhead Testing Of The Abraham Federal #3 well, O-24-24N-02W Rio Arriba
County, New Mexico on March 11, 1993

Dear Mr. Culp:

Mr. Dan Ross of the Rio Puerco District of the BLM and I performed a bradenhead test on the referenced well and gauged a continuous flow of gas at 11 PSI for fifteen minutes from the bradenhead. You are hereby directed to perform at minimum a cement bond and noise log to access the condition of the outside casing and hole annulus.

If you have any questions contact this office at (505-334-6178) or write the letter head address. This matter is urgent, so please respond in like manner.

Your's truly

Ernie Busch
District Geologist/Deputy Oil & Gas Inspector

cc: Mr. Dan Ross-BLM Rio Puerco District
Mr. Robert G. Stovall-General Counsel
Mr. Don Voss
