Killarney Oil

January 12, 1960

Mr. Daniel F. Cunningham
5513 College Avenue
Oakland, California

Dear Mr. Cunningham:

We are in receipt of your letter of January 7, 1960, regarding your Killarney Well No. 1, located in Section 24, Township 24 North, Range 7 West, Rio Arriba County, New Mexico.

We regret to inform you that under the rules of the New Mexico Oil Conservation Commission it is impossible to classify a high-ratio well as a gas well if the well is located within the horizontal and vertical limits of an oil pool. While this does admittedly sometimes impose a rather serious problem on the owners of such high-ratio wells, we feel that in the long run it is beneficial in that it places a limitation on withdrawals of free gas from the oil pools, and results in greater ultimate recovery of oil. The gas-oil ratio limitation also affords each owner in a pool the opportunity to produce his just and equitable share of the oil and/or gas underlying his tract.

We will, therefore, be required to continue to impose the 2000 to 1 gas-oil ratio limitation on the subject well.

We offer the suggestion that you have a competent geologist and reservoir engineer investigate the possibility that the well is not completed in the same producing formation as the Escrito-Gallup Oil Pool, and should be removed from the pool. If, upon such investigation, you feel that

SANTA FE, NEW MEXICO

Dear Sir:

Enclosed for you are two copies of the report of the committee on the conservation of oil.

Very truly yours,

The committee on the conservation of oil, created by the act of March 1, 1932, has the honor to acknowledge the receipt of your letter of December 15, 1932, and to inform you that the report of the committee is being prepared.

The committee on the conservation of oil, created by the act of March 1, 1932, has the honor to acknowledge the receipt of your letter of December 15, 1932, and to inform you that the report of the committee is being prepared. The committee has been organized to study the problem of the conservation of oil, and to make recommendations to the President and Congress. The committee has held several public hearings, and has received many suggestions from the public. The committee is now preparing a report on the results of its work, and will submit it to the President and Congress as soon as it is ready.

Very truly yours,
The Committee on the Conservation of Oil

April 12, 1933

Dear Sir: I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the proposed oil conservation plan for the Santa Fe oil field. The same has been forwarded to the appropriate authorities for their consideration.

Sincerely,
Very truly yours,

W. A. RORER
Secretary

Very truly yours,
