proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-

It is believed that the above well has a casing failure. We propose to evaluate the extent of same no later than April of 1971 and at that time determine if it can be fixed ☒ on an economic basis or else the well will be plugged and abandoned.

A report on this well will be filed no later than 4-30-71 as to the status of same.
