TRINITY UNIVERSAL

INSURANCE COMPANY

DALLAS, TEXAS
August 11, 1960

Mr. Al Kendrick
District Engineer
Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico

Dear Mr. Kendrick:

Our Bond 311378 - Jim Storms, Principal - New Mexico
Oil Conservation Commission, Principal

This office has received the letter of Mr. Oliver E. Payne dated August 4, 1960 demanding that this company, as surety on the above bond, proceed to plug the Ghost Ranch Jim Storms Well #2 in accordance with the terms of our bond. I am writing to you for your assistance in getting this done as suggested in Mr. Payne's letter.

You are probably aware that we experienced great difficulty in getting Mr. Storms to plug the Ghost Ranch Jim Storms Well #1 and since that time we have determined that Mr. Storms is now bankrupt and it would be of little assistance to us to attempt to get him to do this work. Therefore, I am asking that you advise us of what action is necessary on our part to get this well plugged as well as to clean up the location of the Ghost Ranch Jim Storms Well #1 as was also demanded by Mr. Payne.

Your assistance in this matter will be greatly appreciated as we have no representative in your area and any help you can give us will make it that much easier and more satisfactory for all concerned.

Very truly yours,

Henry Yates
