Dear Mr. Kendrick:

Re: Bond 311378  
Jim Storms, Principal  
New Mexico Oil Conservation Commission, Obligee

I have your letter of August 24, 1960, and actually the information contained therein is not what I was hoping you would furnish me. Since this company does not have a representative in the Farmington, New Mexico, area, I was hoping that you could assist us in securing competent ~~oil~~ servicing companies to plug these wells and clean up the area as suggested in Mr. Payne's letter of August 4, 1960.

Since Mr. Payne did suggest this, I thought that perhaps you would be in a position to give us the assistance rather than our having to either handle it by telephone, correspondence, or by having to assign it to someone there with whom we are not familiar. If you cannot do so, please let us know and the solution to this problem will be pursued in another manner.

Very truly yours,
