PACKER-SETTING AFFIDAVIT  
(Dual Completions)

STATE OF New Mexico )  
County of Bernalillo ) ss

Jim L. Jacobs, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Val R. Reese & Associates, Inc. in the capacity of Geologist and as such is its authorized agent.

That on November 21, 19 59, he personally supervised the setting of a Baker Model "D" in Val R. Reese & Assoc., Inc.'s  
(Make & Type of Packer) (Operator)

Lybrook Well No. 1-19, located in Unit  
(Lease)

Letter C, Section 19, Township 24N, Range 6W, NMPM,  
County, New Mexico.

That said packer was set at a subsurface depth of 6340 feet,  
said depth measurement having been furnished by Steel Tape.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the comingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
