Re: Redfern Development Corp.
Large Spur "A" Well #1
Sec. 14, T24N, R7W
Rio Arriba County, New Mexico
Administrative Order NFO

Dear Mr. Porter:

This is to request permission to continue to flare gas on the captioned well. As shown on the G.O.R. test run on April 20, 1970, the well produced .8 bbl. of oil and 18 MCF gas in 24 hours, the Gas-Oil Ratio was 21,687 cu. ft./bbl.

We do not feel that a workover program would make the well capable of producing economically into Southern Union's line.

Sincerely,

Original signed by T. A. Dugan
