Re: Gulf Oil Corporation
Apacne Federal #12
J-17-24N-5W
Basin Dakota Pool

Dear Mr. Borland:

The subject well may be produced into a gas gathering facility to reduce the pressure prior to remedial action.

It is estimated the production period will not exceed 30 days.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick
District Supervisor

Mr. Hendricks
Supervisor, District 3
Oil Conservation Division
1000 Rio Brazos Road
Aztec, NM 87401

Dear Mr. Hendricks:

Your administrative approval is respectfully requested to produce the subject well down the sales line to alleviate pressure on the well. After bleeding pressure off, the well will be worked on to repair casing. If the repair work is successful, the well will then be scheduled for testing for an allowable assignment.

Your favorable consideration of this request will be greatly appreciated.

Yours very truly,

C. D. BORLAND
