Gentlemen:

This letter is to inform you that Continental Oil Company intends to commence the annual packer-leakage test on dual completion well Northeast Haynes No. 6, Unit D, Section 15, T24N, R5W, Rio Arriba County, New Mexico, on December 21, 1964.

A previous packer-leakage test on the well indicated a tubing leak existed. Remedial action was accordingly taken to repair the leak and all original dual completion equipment has been serviced and replaced in the well.

Very truly yours,

F. E. Ellis  
Assistant District Manager  
Durango District  
Production Department
