## CONTINENTAL OIL COMPANY

P. C. Box 3312 Durango, Colorado May 2, 1963

Mr. A. L. Porter Secretary and Director Hew Mexico Oil Conservation Commission P. O. Box 871 Santa Fe. New Mexico

Subject: Northeast Eaynes No. 2
Dual Completion

Dear Mr. Porter,

In accordance with New Mexico Oil Conservation Commission rules and regulations in regard to dual completions, we are submitting the required applications, sketches, plats, and logs.

Letters and copies of the application for Northeast Haynes No. 2 has been sent to all offset operators. A copy of this letter is attached for your approval.

The well in question is presently producing Dakota "J" sand gas into El Paso's high pressure system. It is proposed to cross the Dakota gas over into the annulus (see sketch), 60 feet above the Gallup with a retrievable crossover snap-set packer. Gallup gas and oil will then be produced with a plunger lift system.

We respectfully solicit your approval of this application for the dual completion of Hortheast Haynes Well No. 2. Please notify this office if any question arises concerning the subject application.

Very truly yours.

R. H. Jensen

Assistant District Superiz

Durange District

Production Department

#### Gentlemen:

The New Mexico Oil Conservation Commission Rules and Regulations require that all offset operators be furnished copies of multiple completion applications. In accordance with these rules, we are furnishing you with copies of our applications to dually complete the following Continental Oil Company wells located on our Mortheast Waynes lease, Rio Arriba County, New Mexico:

Well No. 2 - Section 16 - T24N, R5W Well No. 3 - Section 16 - T24N, R5W Well No. 4 - Section 21 - T24N, R5W Well No. 5 - Section 22 - T24N, R5W Well No. 6 - Section 15 - T24N, R5W

The subject wells are to be dually completed in Gallup and Dakota formations.

Very truly yours,

B. D. Haley District Superintendent

Durango District Production Department
