7. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This notice serves to clarify the record on the status of the above referenced well. The well is currently producing oil and gas via beam lift.

The Bureau of Land Management granted BCO, Inc. permission to plug and abandon the well because of a casing leak on 17 September 1991. But because of the royalty reduction program for stripper wells, BCO elected to repair the well and received approval from the Bureau of Land Management on 03 December 1991. (Copy of Sundry Notice attached).

BCO, inc. completed the repair work on 16 September 1992 (Copy of the Sundry Notice attached) and the well is now producing.
