Final Abandonment Notice	Altering Casing X Other Status Report	Conversion to Injection Dispose Water [Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.]
Describe Proposed or Completed Operations (Clearly state all per give subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations and measured and true vertical described by the subsurface locations are subsurface locations.	rtinent details, and give pertinent dates, including estimated date of epths for all markers and zones pertinent to this work.)*	starting any proposed work. If well is directionally drilled

Evaluation of production level is substantially complete for this well. We are currently compiling cost data to evaluate the economics of pumping unit installation to produce this well. Test data and a plan for producing this well will be completed and presented by May 1, 1996.
