The below well has shown up as not having production reported. The operator, R & G is no longer in existence. There is a serious question as to whether M & G is a successor in interest. At this time Energen is the operator of record for the Jicarilla lease that this well is on. The BLM is holding Energen's feet to the fire on this well and I talked to Gary Brink of Energen today. They expect to have this well plugged within 45 days. In the meantime don't expect any reports on it. It hasn't produced in more than 20 years. Gary is checking to see if they have to file documentation of operatorship. That may put a kink in it. Oh well.(sigh)

API Well No : 30 39 5637 Eff Date : 01-01-1900 WC Status : A
Pool Idn : 72439 BLANCO P. C. SOUTH (PRORATED GAS)
