Mr. Emery Arnold
Oil Conservation Commission
Aztec, New Mexico

Dear Emery:

I observe that on your Gas Supplement No. (NW) 5552 dated June 29, 1960 in re my Jicarilla Well No. 3-23, the allowable for April is shown to be 241 MCF, while the allowable for May is shown to be 2282 MCF.

My copy of the April 1960 Northwest Gas Proration Pool Balancing Schedule shows an Actual Pool Allocation for the Ballard P. C. Pool of 1,282,809, while the same schedule for May is an allocation of 1,225,612.

Is it possible that the April allowable of 241 MCF is correct?

Yours sincerely,

Ken Blackford
