Dear Mr. Arnold:

The Penrose Production Corp. Florence #4, located in Section 5, Township 25North, Range 3 West, Rio Arriba County, New Mexico, was produced through the tubing for the initial Deliverability Test filed April 16, 1964.

This well is scheduled for annual deliverability test in testing area 26D. Penrose Production plans to produce the well through the casing for this test and we wish to substitute this annual deliverability test for the initial deliverability test previously filed.

Yours very truly,

Thomas A. Dugan
