Mr. A. L. Porter, Jr., Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico

Ref: Manning Gas and Oil Company, Operator
Apache No. 100, Gallup, Graneros-
Dakota Dual Oil Well, NE/4NE/4
Section 3-T24N-R4W, Rio Arriba
County, New Mexico

Dear Mr. Porter:

Please consider this letter as a request on behalf of the above-referred-to operator to have a hearing before the New Mexico Oil Conservation Commission or an Examiner of the Commission. The request for the hearing is being submitted at this time in order for the hearing to be considered for being scheduled for January 19, 1972.

A hearing is requested to consider, but not limited to, the following:

1. Authority to commingle production from an undesignated Gallup Oil Pool and an Undesignated Dakota Oil Pool in the well bore of the above-referred-to well.
2. That each well previously completed in the above-described pools, and adjacent or offsetting the above-referred-to well, has been capable of only low marginal production.
3. That wells completed in the future in said pools will be capable of only low marginal production.
4. That underground waste would not be caused by the proposed commingling of the above-described pools, of production in the well bore of the above-referred-to well.
5. The mechanics of the proposed completion.

 Apache No. 100, Apache, Garfield

Dear Mr. Barker:

Please consider this letter as a request on behalf of the
 above-referenced operator to have a hearing before the New
 Mexico Oil Conservation Commission or an extension of the
 Commission. The request for the hearing is being submitted
 at this time in order for the hearing to be considered for
 final decision on January 17, 1972.

A hearing is requested to consider, but not limited to,
 the following:

1. Authority of the Commission to regulate production from an underground oil pool and an underground gas pool.
2. That each well previously completed in the above-referenced pool and subject to regulation the above-referenced well, has been capable of only low marginal production.
3. That wells completed in the future in said pool will be capable of only low marginal production.
4. That under normal circumstances would not be caused by the proposed completion of the above-referenced pool, production in the well bore of the above-referenced well.
5. The mechanics of the proposed completion.

6. The allocation of the commingled production to each of the commingled zones.
7. That a procedure be established whereby the Secretary-Director of the Commission may approve the similar completion of other wells to be drilled in the following area:

Township 24 North, Range 4 West;

Sections 1, 2, 3, 4, 9 thru 14,
23 and 24.

Enclosed you will find a copy of the Application For Permit to Drill which has been filed with the United States Geological Survey, Durango, Colorado.

Your consideration to schedule the requested hearing on January 19, 1971, would be greatly appreciated.

Very truly yours,

Ewell N. Walsh, P. E.
