Gentlemen:

The following is a development plan for surface use in the drilling of our Jicarilla "C" Well No. 27. Also attached is an application to drill the well. (Form 9-331C)

1. Existing Roads: Highway #44 South of Bloomfield, NM, 55 miles to Counselor, turn left 9 miles to Y in road and take right fork of Y to El Paso's Lindreth Camp, turn left across Largo Canyon Bridge. Approximately 3 miles to Skelly lease sign, turn left 1/2 mile and left to location. (See attached map Ex. I)

2. Planned Access Road: Approximately 1500' across rolling land to be constructed. (See attached plat Ex. II)

3. Location of Wells: (See attached plat Ex. III)

4. Lateral Roads: There will be no roads other than indicated in item 2 above.

5. Tank Batteries & Flowlines: If the well is a producer, we plan to set 1-300 bbl. tank and a three phase separator. (See attached plat Ex. IV)

6. Water Supply: Water source will be a water hole in the Largo Wash approximately 5 miles Southeast of the well location.

7. Methods for Handling Waste Disposal: A reserve pit of adequate size will be used to handle waste and water disposal.

8. Location of Camps: None

9. Location of Airstrips: None
