Jicarilla Contract No. 127

Dear Mr. Ramey:

This request for administrative approval of a non-standard proration unit for the above-referred-to well is being presented on behalf of the operator, Manning Gas and Oil Company. This request is being presented in accordance with the procedure set forth in Order R-4314.

The subject well is located 1850' feet from the North Line, 1140' from the West line of Section 3-T24N-R4W, Rio Arriba County, New Mexico. See attached Well Location and Acreage Dedication Plat.

Due to the configuration of Section 3 and the location of the subject well it would be impossible to establish a 160-acre proration unit without having to exclude a portion of the North-east Quarter of the section which is a legal subdivision.

Therefore, it is requested that the 220.47 acres included in the Northwest portion of Section 3-T24N-R4W be approved as a non-Standard Proration Unit for the above-referred-to well.

Copies of this request are being sent to the offset operators of Pictured Cliffs wells, as indicated on attached map, by Certified Mail.

Mr. Joe D. Ramey
February 11, 1976

Thank you for your cooperation and consideration in this matter.

Very truly yours,

Ewell N. Walsh, P. E.
President
