

9. Well Site Layout:

- (1) See attachment #4.
- (2) See attachment #5  
Reserve pit on SW side of drill pad.  
Dirt will be stockpiled on South and East sides  
of drill pad.
- (3) See attachment #5.
- (4) Pits will not be lined.

10. Plans for Restoration of Surfaces:

As soon as pit is dried up it will be filled in and the surface leveled and contoured to surrounding terrain.

11. Other Information:

- 1. Drill site very flat and slightly dropping to NW.  
Abundant sage brush and fair amount of grass.  
No water or occupied building nearby.
