Non-Standard Proration Unit Cotton Petroleum Corporation

Apache No. 106

Unit A, Sec. 1-T24N-R4W, N.M.P.M.

Lindrith Gallup-Dakota, West

Oil Pool

Rio Arriba County, New Mexico Jicarilla Contract No. 126

Dear Mr. Ramey:

This request for administrative approval of a non-standard proration unit for the above-referred-to well is being presented on behalf of the operator, Cotton Petroleum Corporation. This request is being presented in accordance with the procedure set forth in Order R-4314.

The subject well is located 2040' from the North Line, 945' from the East Line of Section 1-T24N-R4W, Rio Arriba County, New Mexico. See attached Well Location and Acreage Dedication Plat.

Due to the configuration of Section 1 and the location of the subject well it would be impossible to establish a 160-acre proration unit without having to exclude a portion of the Northeast Quarter of the section which is a legal subdivision.

Therefore, it is requested that the 220.47 acres included in the Northeast portion of Section 1-T24N-R4W be approved as a non-Standard Proration Unit for the above-referred-to well.

Copies of this request are being sent to the offset operators of Gallup-Dakota wells, as indicated on attached map, by Certified Mail.

Re: Mr. J. D. Ramey January 19, 1978

Cotton Petroleum Corporation

Apache No. 106

Thank you for your cooperation and consideration in this matter.

Very truly yours,

Ewell N. Walsh, P.E.

President
