17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to BLM letter #SF-078562 (WC) 3162.3-2 (019) dated October 26, 1988:

The Flag-Redfern Oil Company Largo Spur #4 well is a gas well capable of production as evidenced by a production test run on 8-11-87 witnessed by a representative of the Farmington BLM office. The well has 190 psi casing and 190 psi tubing pressure with zero pressure on the Bradenhead. These pressure measurements indicate that the casing integrity is OK and after discussion with Mr. John Keller, it was his opinion that this will suffice as a casing integrity test for 1988.
