

1. Existing Roads

To reach Resources Investment Corporation's well location, Escrito Federal #1, in the SW SW, Section 26, T24N - R7W, Rio Arriba County, New Mexico, from Lybrook, New Mexico -- proceed west on State Route 44 for one mile to Adobe Oil Company sign, turn north on dirt road and proceed north for two miles and follow road northwest for one mile and north for one-quarter mile to fork in road, turn east on right hand fork and go in an easterly direction for two and one-half miles to proposed access road.

See Topographic Map "A: and Item #2.

There are no plans to improve the existing road. Roads will be maintained and kept at standards necessary to handle traffic during the drilling and production of this well.

2. Planned Access Road

See Topographic Map "B".

The proposed access road leaves the existing unimproved road near the southwest corner of Section 26, T24N - R7W and proceeds to the northeast for 1100' to the proposed location in SW SW of Section 26.

The proposed access road will be an 18' crown road with drain ditches along either side of the proposed road where it is determined to be necessary in order to handle any normal runoff in this area.

The grade of this road will be from flat to 7% and will be constructed from native soil accumulated during construction.

Any fences encountered on this access road will be cut and replaced with an 18' cattleguard with a loading factor large enough to facilitate the heavy loads required during the drilling and production of this well.

Culverts will not be installed unless deemed necessary by all agencies involved.

3. Location of Existing Wells

See Topographic Map "A".
