RE: Non-Standard Proration Unit
Cotton Petroleum Corporation
Apache #123
Lindrith Gallup-Dakota West
Rio Arriba Co., New Mexico

Gentlemen:

Cotton Petroleum Corporation respectfully requests that a non-standard proration unit be approved for the Apache #123. The unorthodox size of this proration unit is due to a variation in the legal subdivision of the United States Public Land Surveys. The proposed unit contains 225.54 acres of land described as the NE $\frac{1}{4}$ of Section 4, T 24N, R 4W in Rio Arriba County, New Mexico. The proposed well is to be located 660' FEL and 560' FNL of Section 4.

It is requested that this non-standard unit be approved administratively under the provisions of Rule 3 of the West Lindrith Gallup-Dakota Oil Pool Rules. If the commission determines that this matter cannot be disposed of administratively, please set it for hearing at the earliest possible date.

A copy of this letter is being sent by Certified Mail to the offset operator of the proposed non-standard proration unit as notice of this application and request for their waiver. The offset operator is:

Continental Oil Co.
555 17th Street
Denver, Colorado 80202

A copy of Form C-102 Well Location & Acreage Allocation Plat is enclosed.

Thank you,

D. E. Wood
Division Production Manager
