

SURFACE USE PLAN
Continental Oil Company
AXI Apache "N" No. 15
1650' FNL and 800' FEL, Section 11, T-25N, R-4W
Rio Arriba County, New Mexico

The plan is to accompany "Application for Permit to Drill" the subject well. The following is a discussion of pertinent information concerning possible effect which the proposed drilling of the well may have on the environment of the well and road sites and surrounding acreage. A copy will be posted on the derrick floor so that all contractors and sub-contractors will be aware of all items of this plan.

1. Existing Roads

- A. The proposed well site is 1650' FNL and 800' FEL of Section 11, T-25N, R-4W, Rio Arriba County, New Mexico.
- B. Exhibit "A" is a portion of an AXI Apache "N" lease map showing existing roads and the proposed new location.
- C. Access Roads are shown on Exhibits "A" and "B".

2. Planned Access Roads

Refer to the attached archaeological report.

3. Location of Existing Wells

See Exhibit "A"

4. Location of Existing and/or Proposed Facilities

- A. Tank Batteries: One 400 bbl. tank and a production unit will be located on the well site.
- B. Rehabilitation: Pits will be backfilled and leveled as soon as practical to original condition. Commencement of rehabilitation operations will immediately follow removal of drilling and completion equipment from locations. Rehabilitation of the surface is planned to be completed within 45 days from commencement.

5. Water Supply

The supply of water will be hauled from Largo Wash. (See Exhibit "C")

6. Source of Construction Materials

Not applicable. Drilling pad to be compacted.
