17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The subject well, formerly No. 8-E, has been renumbered at the request of the New Mexico Oil Conservation Division. The well was originally in the Basin Dakota Field, but after completing it as an "oil well" producing 100 BOPD and 311 MCFPD, the boundaries of the West Lindrith Gallup - Dakota Field were enlarged to include the South half of Section 36-T25N-R5W. Thus, the well is now in the West Lindrith Gallup - Dakota Field and is now No. 13.
