Mobil Producing Texas & New Mexico Inc.

Gentlemen:

Reference is made to your request for approval to vent produced gas from your Lindreth Unit B, well No. 1 for a period of 120 days while you are waiting on a gas connection. In view of the volumes of gas that will be involved, it does not appear that venting should continue past April 4, 1980, 60 days from your well completion date. Therefore your application for approval to vent gas for 120 days is hereby denied. However, your venting during the period from February 4, 1980 to April 4, 1980, is approved.

Please be advised that it is also necessary for you to obtain approval for gas venting from the NMOCD office in Aztec, New Mexico, by use of form C-129 as well as receiving approval from this office for Indian and Federal leases.

Sincerely,

*James F. Sims*
