RE: Operational Plans
Connie 29-1
SW/4 SE/4 Sec. 29 T24N R7W
Rio Arriba, New Mexico

Dear Mr. Fellows:

This letter is prepared in response to your letter dated June 30, 1989, file SF-078924 3162.3-2, where in you requested our plans for the subject well.

We are in the process of preparing APD's for 18 wells in this field area as part of our 1989 drilling program.

The well in question and the acreage surrounding this well is currently being evaluated as part of our 1990 drilling program. To facilitate current operations, we would like an extension of the TA status until we have completed the referenced plans. In all probability, we will PxA the Connie 29-1 and redrill a replacement well.

Your consideration in this matter would greatly benefit our planned programs.

Sincerely,

W. J. Holcomb

kds
