Ground Level Elev. 7168	Producing Formation Mesa Verde		Pool Blanco	Dedicated Acres 320	

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.

An Archaeological Clearance Survey of
One Proposed Well Location
Conducted for Schalk Development Company

On February 20, 1981, L. Jean Hooton from the Cultural Resource Management Program, New Mexico State University, San Juan Campus, conducted an archaeological clearance survey of one proposed well location for Schalk Development Company at the request of Mr. Johnny Ahlm-Arapahoe Drilling Company.

Mr. Steve Schalk, Schalk Development Company was present during the survey. The proposed well location is on fee surface - Federal mineral land, and was surveyed under federal antiquities permit 81-NM-083.

METHODOLOGY

The proposed well location was surveyed by walking parallel transects, seventy-five feet apart over the 300 by 300 foot easement.

GENERAL RECOMMENDATIONS:

There were no cultural resources found during the survey; therefore, archaeological clearance is recommended.

Proposed Well: SCHALK DEVELOPMENT COMPANY - SCHALK - GULF #2

Land Status: Fee surface/Federal minerals

Location: The proposed well location is in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 8, Township 25 North, Range 3 West, N.M.P.M. Rio Arriba County, New Mexico. The well will be 1725 feet from the north line and 1640 feet from the east line of Section 8. (Figure 1)

U.T.M.: Center - 13: 3,05,950 mE; 40,31,945 mN

Access: Existing

Area Survey: 2.07 acres

Terrain: Open rolling canyon bottom with southerly drainage, alluvial surface deposits and sandstone outcrops.

Soil: Sandy clay loam

Vegetation: Piñon, juniper, sagebrush.

Cultural Resources: None found.

Recommendations: Clearance recommended.
