17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Getty Oil Company requests permission to temporarily abandon the Basin Dakota for a period not to exceed one year so that flow testing may be conducted on the Otero Gallup formation in this well. Data obtained will aid in determining feasibility of commingling or dually completing this well.

The well is presently producing gas from the Dakota through 2 3/8" tubing from below a 5 1/2" packer. A sliding sleeve above the packer will be opened with a blanking plug set below the sleeve. The Gallup will be produced through the sliding sleeve and tubing.
