17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

On 1-8-82, the Dakota zone of this well was plugged off. A blanking plug was installed in the 2 3/8" tubing below the 5 1/2" packer. The Gallup zone is currently producing thru a sliding sleeve in the same 2 3/8" tubing string. The Dakota will remain shut-in for a period of not more than one year while we flow test the Gallup zone. This will aid in the evaluation of this well for either a multiple completion or a commingled well.
