Rio Arriba
13. STATE
New Mexico
14. API NO.
15. ELEVATIONS (SHOW DF, KDB, AND WD)
6765' GR

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

OIL CONT. DIST. 3

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We respectfully request permission to move drilling fluids from the above location. The fluids will be used to stabilize the road on the Jicarilla Tribal Lands from the cattle guard entrance (NW, NW, NW of Sec. 18 T26N R5W) to the 5 Point area (SE, SE, Sec. 33 T25N R5W). This sundry notice was requested by Mr. Harold Tecube.

We want it understood that by initiating the movement of drilling fluid, John H. Hill, et al, agrees to indemnify the Jicarilla Apache Tribe and the Bureau of Indian Affairs harmless from all claims, liabilities and cause of action whatsoever which may arise by reason of operations of John H. Hill, et al, its agents, employees and subcontractors. Specifically, this permission is for the treatment of a portion of tribal road that begins at the west reservation boundary cattleguard entrance onto tribal lands at Section 18, Township 24 North, Range 5 West, N.M.P.M.; thence following Jicarilla Apache Tribal Road J-18 in a north-easterly course to a terminus in Section 33, Township 25 North, Range 5 West, N.M.P.M.. The point of termination is a part of the reservation commonly known to oilfield workers and others as "5 Points". We advise further that approvals of movement of fluids from these two locations shall in no way be construed as giving "Carte Blanche" approval to the movement of drilling fluid, but rather that each request will be considered on a case by case basis.
