Application For Tubingless Exception To Rule 107

Dear Ms. Perez:

Your request to pull tubing in the referenced well and install a casing plunger is hereby granted. This action may produce gas and lift oil and water more efficiently that could result in the recovery of additional reserves. If the plunger is removed after installation, tubing must be re-run before the well is allowed to produce.

If you have any questions, please contact this office.

Yours truly,

A handwritten signature in cursive script that reads "Ernie Busch".

Ernie Busch
District Geologist/Deputy O&G Inspector
