Dear Jeff:

As per our conversation today, enclosed are copies of all correspondence relating to the above referenced well. You will note that a copy of our letter to McElvain was sent to the Santa Fe Office.

If you require any other information please advise.

Sincerely yours,

Kevin H. McCord
Petroleum Engineer

Gentlemen:

We request approval for an unorthodox Gallup location for the above referenced well. This well was originally drilled as a Dakota location and we propose to recomplate it in the Gallup formation. The well received approval as an unorthodox Dakota location on November 17, 1980 by Order No. R-6521.

We feel an orthodox recompletion in the Gallup formation is the most economical method to test Gallup potential in this area. Enclosed is a plat showing the well location and offset lease ownership. Also enclosed is a topographic map showing color coded lease ownership.

If any problems arise with this request please advise.

Sincerely yours,

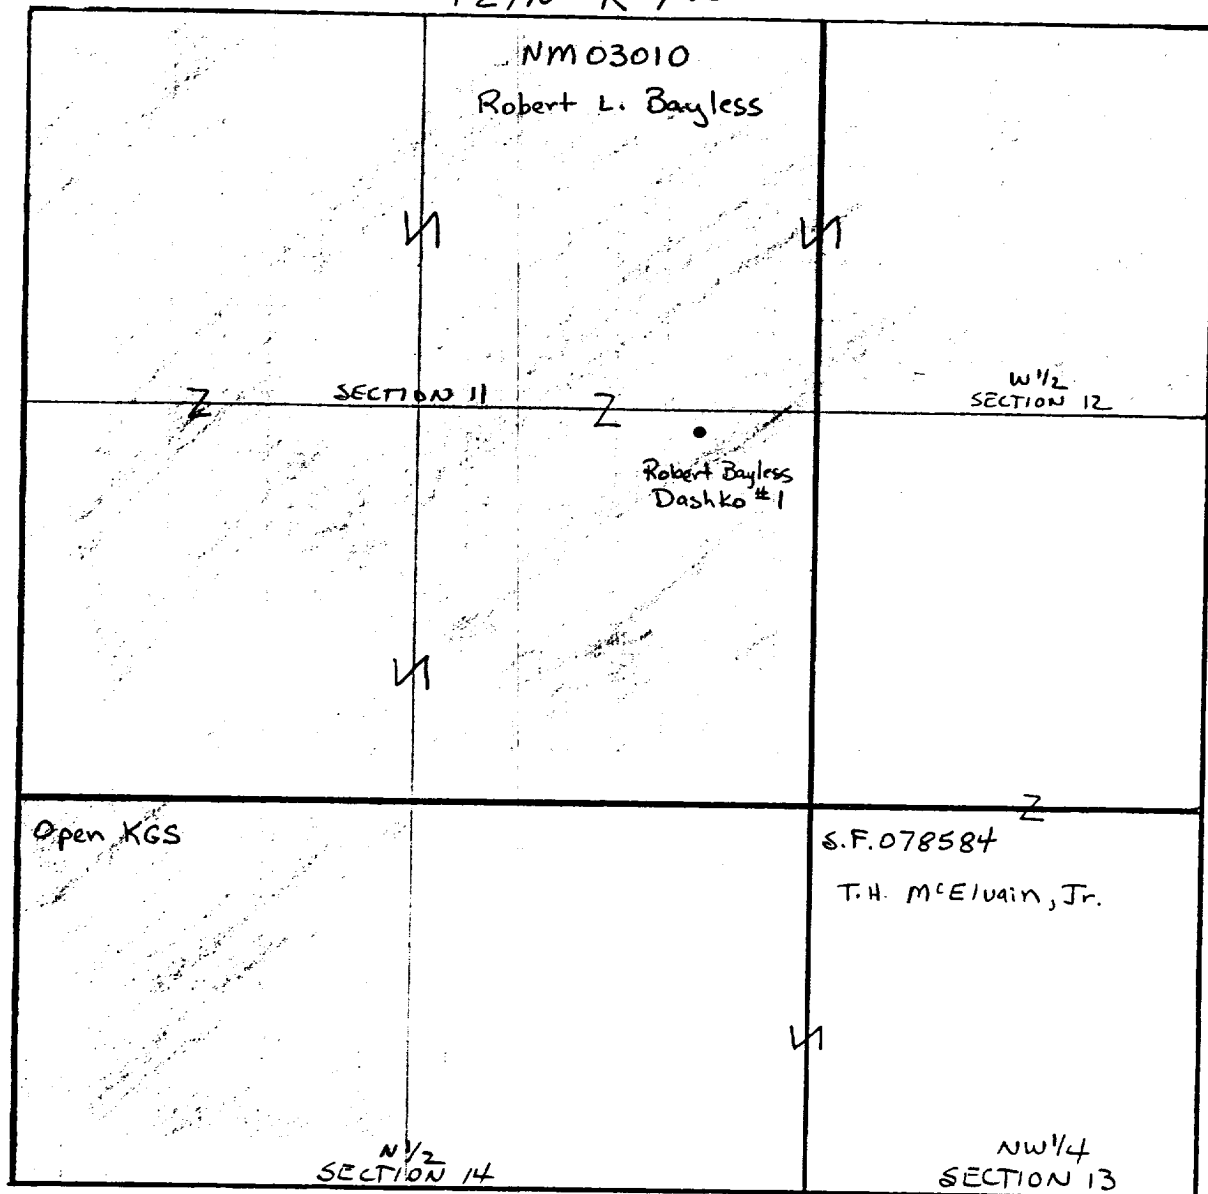

Kevin H. McCord
Petroleum Engineer
